CURRICULUM

ENGLISH LANGUAGE ARTS

Aligned with research on the Science of Reading, Benchmark Advance is a comprehensive language arts program that fosters the development of literacy skills and content knowledge.

MATHEMATICS

Eureka Math is a well-designed curriculum that builds enduring math knowledge by focusing on key concepts that layer over time like a story. Students gain a comprehensive understanding of math, not just a collection of skills.

Zearn is a highly rated platform for learning math that helps children understand and engage with mathematical concepts at an individualized pace.

DIGITAL SUPPLEMENTS

Easy Tech from Learning.com provides students critical digital skills such as digital literacy, keyboarding, computer coding, online safety, and virtual robotics through engaging lessons.

IXL enhances students' Reading and Science skills with personalized learning paths and real-time diagnostics.
