### **Equitable Enrollment**

Every child should have access to high-performing school choices, CHPA is committed to ensuring all conducted student admissions and enrollment practices are completed in an equitable manner and will further consider opportunities for improving student diversity.

State law (C.R.S. 22-30.5-104, Title 22: Education, Article 30.5: Charter Schools) prohibits schools from establishing “undue barriers” during either admissions or enrollment process that have the effect of excluding students based on socioeconomic, family, or language background, prior academic performance, special education status, or parental involvement.

The Board of Directors of Chavez/Huerta K-12 Preparatory Academy will provide procedures and directions for Admissions, Enrollment Processes, and an Admissions Lottery when at capacity. All Admissions processes being established will be in compliance with state and federal laws.
